

Technical Data Sheet		<b>TDS</b>
Triphenyl Phosphite		
TPP=CH8000		
Product Specification		
Product Name	Triphenyl Phosphite	
CAS No.	101-02-0	
Molecular Weight	310	
Quality Index		
Appearance	Colorless and transparent liquid	
Chromaticity (Pt-Co)	≤50	
Density (25°C, g/cm <sup>3</sup> )	1.180-1.192	
Refractive Index (η <sub>25</sub> )	1.585-1.590	
Freezing Point (°C)	19-24	
Acid Value (mgKOH/g)	≤0.5	
Packing Method	200KG metal pail	
Application Note		
<p>This product is mostly used as a chelating agent, it's widely used in all kinds of PVC products. It can make the products to keep its transparency and inhibit the change of color, at the same time it can increase the antioxidative ability and light &amp; heat stability for the primary antioxidant. In addition, this product is also used in PE, PP, ABS, SBS and other products, and can be used as pesticide intermediates.</p>
